

BGCNC's Kids Corner

January 2018

Some major events that occurred this month at the Boys and Girls Club of the North Country including the welcoming of our new director Sara Shovlin and purchasing new sleds for the kids to use during outdoor fun. The kids interviewed Sara, coming up with their own questions. The kids also talked about the new sleds and their thoughts on them. This month, kids also signed up for the free Boys & Girls Club Ski Free day at Bretton Woods to learn how to sk. This month also had a big change when K-2 was separated from the 3-7 for programs, excluding a few of the program choices. The kids asked some other kids about their opinions on that.

Interview with Sara

By: Tomica , Kasey, and Sadie.

Q: How do you like your job?

A: I love my job, it's the best!

Q: What's your favorite part of the job?

A: When the kids come!

Q: Do you like the Club?

A: I love the Club, it feels like home!

Q: What was your interest in the job?

A: I like kids and I wanted to try something new!

Q: Did you like the move?

A: Yes! It was a great challenge!

Shipment of Sleds

By: Harley , Tomica, and Kasey.

Interviewing Abigail and Alex

Q: Were the sleds comfortable?

Abigail: No, they are uncomfortable!

Alex: No, they are too small for big kids!

Q: Do you like these sleds better than others?

Abigail: Yes, they are so small and cute!

Alex: No because they are tiny.

In conclusion, the sleds may be uncomfortable for the bigger kids but for the little kids they are small and fit into them.

Free Ski Day at Bretton Woods: ANTICIPATION!

By: Kacey

The Boys and Girls Club teamed up with Bretton Woods to have a Free Ski day for the kids. Bretton Woods loaned their ski equipment to the kids for the day at no cost! The kids had the option to be driven to the ski day if they had no ride, but there was only a few spots! Kids also had free lessons in the day, there was a lunchtime but we had to remember to bring lunch or money for lunch. There will be more to come in the next issue of the BGCNC's Kids Corner about the Free Ski day.

The Boys and Girls Club's Big Change!

By: Luke and Harley

The big change at the Boys and Girls Club is our recent divide of the k-2nd graders and the 3rd-7th graders. These two groups are separated from each other during snack, program choices, with the exception of usually one integrated program choice, and the homework time, known as "Power Hour." The kids are allowed to mix when getting their snacks and during free time!

Harley and my opinion is that we think it is good that we split the little kids from the bigger kids because the little kids need programs fit for them and the bigger kids programs fit for them. We like it because it sets back the competition from getting into a program and the big kids don't always want to be with the little kids.
